JUNE PROGRAM

This months presentation by Dennis McLaughlin will be on the theory and testing of the Operational Amplifier.

The Log Book

NLI Meets with Congressman King regarding HR 607 – 70cm is SAFE

May 19, 2011, Massapeque Park, NY – A delegation of Amateur Radio operators from the Long Island / New York City area met this morning with Congressman Peter T. King (R-NY) to discuss his recent proposed legislation, HR 607, and its impact on Amateur Radio.

Congressman King said that he fully understands and appreciates the importance of Amateur Radio and the service it provides to the community, and that he would see to the modification of the bill so that the 420 – 440MHz band would be excluded from the spectrum to be auctioned.

“The Congressman went on to explain that it was never his intention to remove the 70cm band from amateur use. He further asked us to ‘get the word out’ and inform the Amateur Radio community that 70cm is not in jeopardy,” Several members from State Government and the ARES groups spoke about the importance of Amateur Radio emergency communications.

The Congressman was very receptive to the group, who also extended an invitation to attend Field Day locations in his District.
